~~CONFIDENTIAL~~

Office Memorandum • UNITED STATES GOVERNMENT

DATE: 15 Nov. 1944

TO : Mr. J. E. O'Gara

FROM : Lt. Col. H. W. Dix *HWD*

SUBJECT:

This office recommends an advancement in salary for Mr. Morris Berg from \$3800 to \$4600.

This request is made because of Mr. Berg's excellent work on technical matters in ETO and Italy. Some of this work was done before he was actually transferred to this Section. However, his work since assignment to this Section has been of high caliber and of exceptional importance. The information which he has produced on various subjects has been most helpful to the Army and Navy and to several of the Government agencies. Results of his interviews with European scientists have been most helpful and the guidance obtained as a result of those interviews also has been most helpful.

Mr. Berg has been briefed on the several topics handled by this office which are of exceptionally high security, and he has handled those matters in very excellent fashion.

In addition Mr. Berg has assisted in carrying through the preparation and sending of one of the Italian scientists to this country. The National Advisory Committee for Aeronautics has been most pleased with the results in working with this scientist. This particular piece of work alone has been worth an immeasurable amount to our Government and Berg is to be commended for learning of this man, having the first interviews with him, and carrying through the negotiations to have him come to this country.

Mr. Berg is to cooperate on various technical matters for SI in ETO.

It is recommended that the increase in salary be effective as soon as possible.

Approved. WJ. [redacted]

MEMORANDUM

October 19, 1944

To: The Minister
From: W.M.C.

In agreement with Mr. Looffbourov, I have this morning communicated to Mr. von Jenner of the Foreign Office the following information concerning Mr. Robert Wauchope, now at Annemasse awaiting admission into Switzerland, and Mr. Morris Berg, now awaiting a Swiss visa at London:

(1) Robert Wauchope. He is a transportation specialist and desires to enter Switzerland for fourteen days to discuss with the Legation transportation questions in connection with courier service between Switzerland and Mediterranean basin points.

(2) Morris Berg. He is a technical expert who desires to proceed to Switzerland for a period probably not exceeding two months, perhaps only three to four weeks, to consider patents and inventions submitted to the Legation during the past few years; further, for possible consultation with well-known Swiss scientists concerning scientific and technical developments during that time.

by *W. H. Greene* 25 September 1946

SUBJECT: Recommendation for the Award of the Medal of Freedom
TO: The Adjutant General, Washington 25, D.C.

1a. It is recommended that Morris Berg, American citizen be awarded the Medal of Freedom.

b. Mr. Berg was serving with the Office of Strategic Services, operating in a neutral and enemy European territory at the time of the act and service for which this award is recommended.

c. Name and address of nearest relative: Ethel Berg,
153 Roseville Avenue, Newark, New Jersey.

d. Entered military service from: Not applicable.

e. Decoration previously awarded: None.

f. The entire service of Mr. Berg has been honorable since the rendition of the act or service upon which this recommendation is based.

g. A similar recommendation for this individual has not been submitted.

2. The office making this recommendation has present knowledge of the act and service upon which this recommendation is based.

3a. Mr. Berg, American civilian while serving as a member of the Office of Strategic Services operating in a neutral and enemy held territory, distinguished himself by meritorious service of unquestioned aid to the United States from August 1943 to August 1946.

b.(1) Mr. Berg went to Italy on 12 April 1944 to procure three Italian Scientists and bring them to this country prior to the capitulation of Italy and to obtain whatever new scientific information was available in Italy. He traveled by submarine and was to enter the country clandestinely. Shortly after he arrived near Italy, the capitulation occurred and Mr. Berg was able to enter Rome within two days after the capitulation. There amid a great degree of confusion and hampered by the necessities of other purely military groups and their combat operations, Mr. Berg located and interviewed the three scientists whom he had been sent to contact, and who were among the topmost

TOP SECRET

~~TOP SECRET~~

scientists in their particular fields. To interview them, he went into country in which guerrilla warfare was raging between Italian guerrillas and the German troops which were endeavoring to retain their hold upon Italy, and in which capture by either fighting group when without proper credentials could result in immediate execution. Under these arduous circumstances, he obtained from each of the scientists a complete picture of their scientific work, its current state of progress, and the names and locations of their associates and the progress of their work. On his own initiative, he also located, established reasonably cordial relations with, and interviewed some of the foremost Italian manufacturers and thereby was able to learn what technical and military products they were producing under German invention and patents. As a result of Mr. Berg's initiative, character and personality, much of the knowledge of German developments in radar and fundamental aircraft research became known to the Allies before the enemy could take steps to remove such information or to prevent individuals who had such knowledge from speaking about their knowledge.

(2) In particular, Mr. Berg learned of the presence, in the vicinity to which he was sent, of the scientist who was chief of one of the most important phases of the Italian aircraft research and development; this individual had been head of the Guidonia high speed wind tunnel, and upon the fall of Italy, had removed all the German and Italian secret papers from the buildings connected with the wind tunnel, and had hidden them, then joining a band of guerrillas and fighting on the side of the United States. Mr. Berg through his ingenuity, his high courage and his tireless efforts, was able not only to reach this individual, but also to persuade him to leave Italy on short notice and bring to the United States benefit of the secret papers and developments which summarized the German and Italian high speed flight research, and to put his personal knowledge and genius directly at the disposal of United States supersonic flight research. As a result of the obtaining of this individual by the United States of America, it has competently been estimated that supersonic flight research in this country has been advanced at least two years in comparison with what it would have accomplished had this individual not been available; in addition to the speeding up of the research, and the improvements in American planes during the latter stages of the war, this has saved the government an amount of research effort and expense which cannot be estimated. Had Mr. Berg not recognized the stature of this scientist in his field, and had he not been able to reach him or persuade him to come to this country, it is possible that other countries would have made use of his genius to the consequent deterioration of the relative progress of this country in comparison with others, in the field of flight design.

(3) Between October 14, 1943 and 14 August 1945 Mr. Berg was given special assignments in the European theatre. Much of the

~~TOP SECRET~~

~~TOP SECRET~~

TOP SECRET

information that he obtained was of the highest importance to the American war effort. His constant flow of unusually good intelligence enabled an accurate evaluation to be made on the progress of the German bacteriological warfare program, and constituted one of the important sources of information to the Allies on which policy decisions with relation to American counter-efforts in this field could be made. Obtaining this intelligence required contact with numerous individuals during the later stages of the war when disorganization of enemy lines permitted.

Mr. Berg also obtained important information on many other technical subjects, including the field of fundamental research in the sciences, and of developmental and applicational phases. Some of this research was of the utmost value to the Manhattan district in enabling it to evaluate the progress of German work in the direction of their atomic bomb. In 1944 he attended a meeting of some of the foremost physicists of the world, at which the German progress in this field was discussed. The meeting, although not held in Germany, was surrounded by Nazi security precautions, and most of those attending were rabidly Nazi in ideology. The attendance of this meeting by Mr. Berg, although done at very considerable personal risk and over a relatively extended period of time, was carried off with complete success and yielded some of the most important information snatched from under the protective cloak of secrecy which the Germans maintained on this subject. This and other information sent back by Mr. Berg and obtained by him while under continual risk of exposure and retaliatory action, was used in guiding the US operations in this field and in determining the pace of these operations and the pressures to be placed upon US scientists for rapid progress toward the ultimate completion of the Manhattan project.

4a. It is recommended that the citation be worded as follows:

"Mr. Berg's qualities of judgment, initiative, personal disregard for danger, and his fine planning and organizing abilities were of the highest value to the war effort of the United States. In a position of responsibility in the European Theatre with respect to the planning of operations, Mr. Berg exhibited brilliant analytical abilities, and a keen planning mind, which combined with his ability to work continuously for days at a time, to maintain the highest degree of cordiality in liaison with the representatives of Allied nations, and to inspire both respect and constant high level of endeavor on the part of his subordinates, enabled his section to produce studies and analyses vital to the mounting of American operations."

b. While information which must permanently be classified as top secret has been included in paragraphs 1-3 above, the text of the suggested citation can be issued without the necessity of classification. While literally true, it misdirects attention from the true nature of his activities.

- 5 -
S.B.L. PEMROSE, JR.
Chief, FSRO

TOP SECRET

Hq. and Hq. Detach.,
OSS (MAIN) UK BASE.

11 December, 1944.

TO: Mr. R. G. White
FROM: Lt. Col. Robert H. Alcorn
SUBJECT: Morris Berg - SI BRANCH.

1. This will acknowledge receipt of your note dated 2 December, 1944, with regard to subject.

2. Mr. Berg arrived in the ETO on 14 September with the following note from Colonel Rehm: "This is your authority to advance up to the equivalent of \$1,000 to Mr. Morris Berg who is on a special mission for our organization. This money will be accounted for in Washington." Mr. Berg informed us that he was here on temporary duty and we have, therefore, been making open advances to him - to be accounted for in Washington. He requested that we assume his personal expenditures for readjustment with Washington. We were never informed that Mr. Berg was "transferred to ETO".

3. In view of the above, we have to date advanced the total sum of £334.11.4 sterling, 5000 French francs and 500 Swiss francs to Mr. Berg. In addition to this we have paid his hotel bills totaling £330.8.7 sterling. Mr. Berg admits that a great part of this latter amount is personal expenditure and he expects to reimburse OSS, Washington for such items.

4. He left here the other day for Switzerland and at the time of his departure he had no idea how long he would be there or whether or not he would be returning to England. It would seem, therefore, much better for us to continue on advancing him such funds as are necessary to his mission if he should return to London, treating same as transfer to Washington for full accounting. We will therefore not carry through the instructions contained in your letter of 2 December, unless you insist on the basis of further and positive evidence that he is to be based permanently in London. We shall, of course, advise you if and when we make any additional advances.

ROBERT HAYDEN ALCORN,
Lt. Colonel, AUS.

SECRET

Dear Colonel Quinn:-

This letter is written to you in the manner requested by you at my meeting with you and Col. Pruden. The letter refers to the possibility of award of the Medal for Merit for Morris Berg.

During our conference the comment was made that if a large amount of the supporting information and specific dates and cables were given, then there would be violation of the top secret and secret security questions in many instances, and would also violate the request made by Gen. Groves that the information of the part that OSS took on this atom topic was not to be disclosed or publicized in any way at any time after the Hiroshima bomb until further notice. To my knowledge, that notice has not been received from Gen. Groves' office.

You indicated that the information which we felt should be used to support the recommendation of Medal for Merit, would be a memorandum to you and would be kept in the SSU files and not go beyond the organization, and would not be made part of the wording of the Commendation.

~~TOP SECRET~~

~~TOP SECRET~~

2-Col. Quinn

In that light, I should like to make some definite comments as I knew them when in OSS and directly handling the United States end of the work. The comments are regarding circumstances and procedures by Mr. Berg and ones which turned out to be exceptionally helpful in the conduct of the War, and especially in the conduct of the procedures in Gen. Groves' office and at the plants manufacturing the bombs. Some of the general statements herein, it would appeal to me, could be used in sending forward your Board's recommendation.

I would like first to comment upon Mr. Berg's work in Italy. He was originally set up with a submarine for the procurement of the two best Italian scientists on the atomic bomb topic. Many of the arrangements had been made. The capitulation of Italy eliminated the use of the submarine and allowed Mr. Berg to enter Rome two days after it fell and to talk with both of these Italian scientists, and with several of the other scientists who were particularly versed in the nuclear physics. It was not possible to have these two men come to America at that time partly because the security requirements in America prevented these men being used on our nuclear work. However, Mr. Berg with his experience among educators and his knowledge of the topic and his ability to speak Italian, was able to obtain directly very full and detail information of the Italian situation and some of the German situation from these men and their associates. This information was reported to OSS in Washington and from there to Gen. Groves' office without delay.

~~TOP SECRET~~

TOP SECRET

3- Col. Quinn

Among the other Italian scientists whom Mr. Berg interviewed, was Dr. Antonio Ferri (former Major in the Italian Army). Dr. Ferri was the best qualified aeronautical engineer in Italy and was head of Guidonia High Speed Wind Tunnel. Mr. Berg's interview and report on Dr. Ferri were discussed with the National Advisory Committee on Aeronautics in Washington and the director, Dr. Hunsacker, of that organization wanted to have Dr. Ferri in the United States as soon as possible. Cable and aeroplane operations resulted in Dr. Ferri's being delivered to 25th & E Streets, Washington, within ten days with a contract in which Gen. Donovan, Col. Buxton and Mr. Berg all coordinated as they were in Rome at that time. Mr. Berg's recognition of Dr. Ferri's worth and the full report on him was of exceptional value and assistance to our Government.

I am sure that Dr. Hunsacker of National A. S. -

~~TOP SECRET~~

4-Col. Quinn

From Italy Mr. Berg proceeded to London, Paris and Bern. The information thru Mr. Berg's efforts in Switzerland is documented in OSS cables received between May 1944 and May 1945 and there are many instances in which he risked his life to obtain some exceptional information.

About this information, Gen. Groves indicated, that had it not been for the information on the status of the German scientists on this work that Gen. Groves would have overworked several of his scientists and that they would have passed away before the first U.S. bomb was completed. He said that the guidance obtained thru work in Switzerland and France permitted him to gauge the pressure placed upon his scientists and he was thereby able to gauge the ability of the United States to produce two usable bombs before the War was over without "killing off" his own scientists.

Supporting the above comments and setting forth other information which is interesting and valuable in regard to the general request of this letter, I would like to indicate as follows:

That in January 1944 we learned that there were nearly 700 tons of Belgium Congo/^{Uranium}ore in Belgium and this was sent to Duisburg, Germany, by the Germans. Later 42 tons were returned to a Belgium factory for the production of ammonium uranite. In August 1945 Mr. Berg reported after his return to the United States, that this ore was in barrels at Neustadt-Glewe near Weismar,

~~TOP SECRET~~

~~TOP SECRET~~

5-Col. Quinn

Germany, and that he had procured pictures of the barrels and markings, and that he was working on arrangements to follow the barrels to their destination.

Specifically, in a report of June 1944 from Mr. Berg, Amaldi of Italy rated Hahn as the best German scientist on the atomic topic and Goethe as being in a second group. Wick, also an Italian scientist, rated Clausius as the greatest separator of isotopes and that Hahn, Bethe, Strassman as the next in line of importance.

On December 23, 1944, Mr. Berg sat in a lecture given by Heisenberg, the manager of the atomic work in Germany, and considered by many to be the best German on the atomic bomb subject. This lecture was on theoretical physics and on the status of some of the then work in Germany. Mr. Berg sat behind Hahn, Fierz, Weizsacker. There were twenty people present, including several pro-Nazi scientists. Mr. Berg's ability to understand several languages permitted him to follow the lecture and afterwards discuss points with some of them. Reports on this meeting were forwarded immediately. Also Mr. Berg then learned the status of the main points of German developments on this topic and of substitute places of development work, and that the best German physicists were located and working in Hechingen. At this meeting much information was obtained by Mr. Berg on the then present status of the German and French developments. Joliot in France and a leaner toward Nazism, was also working on this topic and

~~TOP SECRET~~

~~TOP SECRET~~

6-Col. Quinn

the Germans had provided Joliot with much information and apparatus.

The risks taken by Mr. Berg at that lecture and in the discussions after and still coming out with the desired information from the highest German authorities, still remains a mystery to me. Such first hand information from the highest sources and immediately reported was of wonderful help to this Government.

Approximately December 28, 1944 report shows that the Germans were working under a hill near Hechingen. This turned out to be correct, as one of the seizures directly after V-E Day was of an installation in the hill which had a church mounted on the top of it.

Approximately December 31, 1944, Mr. Berg learned the Germans felt that successful developments would require two years. Also he learned that a supercyclotron was being built at Bissingen. This development included preparations for work on thorium.

About this time Mr. Berg learned of a Britisher engaging in secret service work in Zurich on the bomb topic where he was not supposed to be in view of our arrangements with the British.

Approximately early February 1945, Dallenbach, a German scientist on the bomb subject, visited Zurich and was in the private library of one of the Professors. Mr. Berg noted books and pages on which Dallenbach was working and when the books were replaced, Mr. Berg learned that Dallenbach was investigating

~~TOP SECRET~~

~~TOP SECRET~~

7-Col. Quinn

the history of the atomic topic.

Also, about the middle of February, Mr. Berg learned that I.G. Farben was backing the cyclotron installation at Bissingen and that there had been some discussion among the German scientists as to the scope of work to be done at that cyclotron and that one of the main German scientists was overruled by the others and that the result was substantially negative.

In March 1945, Mr. Berg, thru his arrangements in Switzerland, had a request sent to Hahn, the best German scientist on this topic, to give a lecture in Switzerland. The invitation was delivered but Hahn could not give the lecture.

By reason of Mr. Berg's pinpointing the locations of the German scientists on the atom bomb topic, Heisenberg, Weiszacker, Laue, Hahn, Diebner and the others were taken directly after V-E Day and temporarily interned in Belgium. Gen. Groves' European representative, Lt. Col. Calvert, working out of the U.S. Embassy in London, complimented OSS and Mr. Berg on the pinpointing of the eleven main scientists in the Hechingen-Bissingen areas.

It was learned that Hitler made it very uncomfortable for several months prior to April 1945 for Heisenberg who was managing the German bomb developments, and at times Heisenberg did not give to Hitler all of the information developed.

~~TOP SECRET~~

~~TOP SECRET~~

3-Col. Quinn

In January 1946 Gen. Groves asked who was the Russian who went to Copenhagen, what he did, whom he saw, and how long he stayed in Copenhagen. Mr. Berg was sent to Copenhagen by plane and learned who the man was and that he had seen Niles Bohr and Bohr's brother and that he was after information on bomb topic. This information Mr. Berg gained in 48 hours and the only dispensing was a partial set of the U.S. Journal of Physics. Gen. Groves was very thankful for the information and the speed with which it was obtained and reported.

For other supplemental and corroborative work, Mr. Berg visited Sweden and to my knowledge had at least two interviews with Miss Liese Meitner, one of the recognized German scientists on this bomb topic. Miss Meitner is one fourth Jewish and for that reason was in Sweden. The Germans, however, kept in very close touch with her on any developments and she was personally acquainted with the main German scientists on the nuclear physics and knew their work from the historical point of view and pretty much of the up to date work. Again the educational background of Mr. Berg and his ability to talk directly with these people and to talk their language was exceptionally helpful in producing very important information, some of which corroborated the information from Switzerland and France. It must be borne in mind that Miss Meitner was under German surveillance all the time in Sweden, and frankly, the question in my mind, is how Mr. Berg ever accomplished the ends without being incarcerated, I do not know.

~~TOP SECRET~~

~~TOP SECRET~~

9-Col. Quinn

After returning from Sweden, Mr. Berg further operated thru Switzerland to check and further learn of the locations of the main German scientists of nuclear physics, and did pinpoint them so that at V-J Day these scientists were quickly taken and placed under control of the Americans and British, and were not, therefore, taken by the Russians.

After V-E Day information regarding the bomb topic and special people in France, Austria, Czechoslovakia and in the Russian controlled area of Berlin, was quickly and thoroughly learned and checked by Lt. Col. Calvert and Mr. Berg taking a trip thru those countries. Col. Calvert from General Groves' office did not speak the languages but Mr. Berg did and he pinpointed many of the persons he knew of and ^{Lt.} Col. Calvert took down the information and forwarded it directly to Gen. Groves.

Lt. Col. Calvert should advise of Mr. Berg's value on that trip. It is understood that Col. Skinner of SSU is to obtain a letter about this information from Lt. Col. Calvert.

Referring again to Mr. Berg's work for National Advisory Committee on Aeronautics and beside obtaining Major Ferri, as noted above, for the National Advisory Committee on Aeronautics, it was recently stated to the writer by John Stack, Chief of high speed experimental work at Langley Field of N.A.C.A. that Mr. Berg's trip to Goettingen to carry out investigations with Dr. Robinson of N.A.C.A. was most helpful. That trip produced the collection of approximately 80% of the information of the German development work on high speed aeronautical designs and

~~TOP SECRET~~

~~TOP SECRET~~

10-Col. Quinn

tests. Dr. Hunsacker, Director, and Dr. Robinson, Engineer of N.A.C.A can corroborate this assistance at any time. Again, language ability and educational background and knowledge of U.S. and European educators and ability to ask direct questions and discuss subjects, as Mr. Berg has done heretofore, was of immeasurable assistance to National Advisory Committee on Aeronautics in obtaining quickly the most desirable information.

Regarding the bacteriological warfare work in which Mr. Berg was also involved, it is believed that Col. Skinner of SSU can give the high points of Mr. Berg's work in Europe. Mr. Berg was briefed on this subject and was given the main "indicators" for him and any of his representatives to work with. It was learned in Switzerland and in France that the Germans did not have an active, large scale skilled operation on this subject.

It is, in view of the above accomplishments and the several times of risking his life, that the writer wishes to again recommend that Mr. Berg be given the Medal for Merit.

Very sincerely,

HWD:C

Howard W. Dix

~~TOP SECRET~~

26 November 1946

Mr. Morris Berg
156 Roseville Avenue
Newark, New Jersey

Dear Noe:

For the last two and a half months I have been making an attempt to reach you because of several things that have come up. You had checked out of your Washington address and left no forwarding address. Accordingly I am writing this letter to the only address I have for you, and trust that you will receive it there.

Four items need to be mentioned at the present time. The first is that you have been awarded the "Medal of Freedom"; while in my letter the details of your work were given quite fully under the TS classification, the commendation writeup has been so worded that it is a very commendatory description of your work in general terms and which can be released without loss of security. We need to know whether you wish to come here for the ceremony of presentation and, if so, when. Second, there are in this office some of your books and a large package which looks about the size of a citation or diploma. Third, since the 23 of September, I have been holding for you a routine letter from the Director of SSU directing that you make an accounting for the sum of \$21,439.14 which is outstanding against you on the Special Funds' books. As you will recall from our previous conversation, it is likely that this can be taken care of by a discussion in which you indicate the subdivisions of the type of expenses that were involved. Fourth, there are certain materials that you promised to return to me and which you have not as yet returned.

During the time that I have been trying to reach you I have asked both Mr. Robertson and Colonel Dix to speak to you, and have been informed that both of them have mentioned this to you. Also, I understand that, since that time, you have been in Washington. I would appreciate it if you would telephone me the next time you are in Washington, so that we can clear up these outstanding matters. I have been able to arrange that all this can be handled personally by this letter and your visit here to the necessary officials. However, the liquidation of SSU requires that it be done soon, and the matter may be taken out of my hands.

Sincerely yours,

/s/ S. M. SKINNER

1 Incl.

cc: Mr. Emmett D. Echols ✓

12 December, 1946
156 Roseville Avenue
Newark, New Jersey

William W. Quinn
Colonel, Infantry
Director

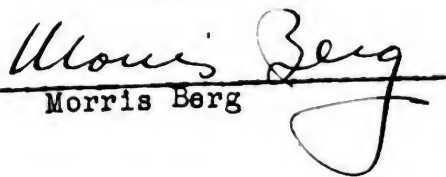

Dear Colonel Quinn:

I have your letter of 6 December.

On 2 December, on being notified of the award, I wrote your Colonel Skinner: 'I regret that I must refuse to accept and I reject the medal awarded me. I do this with due respect for the spirit with which it is offered.'

I am grateful to those War Department officials who were kind enough, under the circumstances, to offer this award for my very modest contribution. But I cannot accept it.

Sincerely,

Morris Berg

CONFIDENTIAL

6 December 1946

MEMORANDUM

TO : Director, SSU
FROM : Chief, Special Funds
SUBJECT: Accounts of Mr. Morris Berg

As you may recall, Mr. Berg has been on a roving assignment for OSS and SSU from approximately April 1944 thru October 1946. Due to the unusual nature of Mr. Berg's assignments and other reasons peculiar to the individual himself, he has been financed during this period by open advances totaling \$21,439.15 for which no accounting has ever been made. A great many attempts were made by Special Funds and others during this period to regularize the financing of the operations of this individual. This was never successfully accomplished.

Mr. Berg has now severed his connection with SSU and an attempt has been made to obtain an accounting for his advances. For reasons unknown to this office, Mr. Berg in a letter to S. M. Skinner, declines to render an accounting for this money and indicates that as a matter of principle, he prefers to repay the entire sum. Whether this was written in a moment of pique is not known, but the document itself would constitute a legal acknowledgment of indebtedness for the entire amount. Thus, Special Funds which was in the position of attempting to get an accounting for monies presumably expended for per diem, transportation and operational requirements, finds itself in the apparent position of collecting the entire amount advanced.

Regardless of the reasons for this strange offer, it undoubtedly would not be an equitable solution to the problem. On the other hand, without the cooperation of the individual, it will be impossible to determine how much, if any, of the amount advanced should be equitably recovered by Special Funds.

In an effort to permit the proper parties to reach a satisfactory settlement of this matter with justice to all parties, the following information has been assembled which will, perhaps, facilitate a compromise settlement, and restore friendly relations between subject individual and the Organization. It is assumed that this is desirable for security and other reasons.

CHECK ONE:

March 5, 1945

To: AWD

From: WMC

The Foreign Office says that the Federal Police has received the second application of Maurice BERG for an extension of his permit to remain in Switzerland. It appears that BERG has already been granted one extension since his entry last October. The F.O. has apparently been asked for an opinion as to whether he should be allowed to stay here. It asks for a description of BERG's mission here and its probable length.

What can you tell me about BERG?

RETURN TO SPECIAL FUNDS OFFICE

OATH OF OFFICE

OFFICE OF STRATEGIC SERVICES
UNITED STATES GOVERNMENT
WASHINGTON, D. C.

BERG, MORRIS

I, Morris Berg, do solemnly swear (or affirm) that, unless otherwise permitted or authorized, I will not disclose or reveal either by word or by conduct any information which I may obtain by reason of my employment by the Office of Strategic Services, and I will forever keep secret any information so obtained by me.

I do further solemnly swear (or affirm) that I have read and understand the Security Regulations of the Office of Strategic Services, in force at the date of taking this oath, and Sections 31 and 32 of Title 50, U. S. C., known as the "Espionage Act", and that I do hereby bind myself to abide and be governed by them and by any supplements or amendments thereto.

I do further solemnly swear (or affirm) that I will support and defend the Constitution of the United States against all enemies, foreign and domestic; that I will bear true faith and allegiance to the same; that I take this obligation freely, without any mental reservation or purpose of evasion; and that I will well and faithfully discharge the duties of the office on which I am about to enter. So help me God.

Morris Berg

Subscribed and sworn to before me, the undersigned, this 29 day of July, 1943

James J. Sauer

SECRET

18 September 1945

TO: Director's Office
Attention: Mr. E. J. Putzell

SUBJECT: Berg-Scherrer Expense Accounts

Please note the attached expense accounts together with memorandum from Colonel H. W. Dix submitted to this office for payment. Colonel Dix states that the expense account of Dr. Scherrer should be charged to the Director's Office. The expense account is submitted to you for proper approval before payment.

This office is totally unfamiliar with the Azusa project. Mr. Morris Berg has no account against which his expense account may be charged. Please advise us if the expense account of Mr. Berg attached is a proper charge against the Azusa project.

MEMORANDUM FOR Acting Chief, SPD-T

THROUGH: Assistant Executive for Personnel

FROM: Emmett D. Echols

SUBJECT: Termination of Morris Berg

Subject was terminated as SSU employee as of October 19, 1946, and was paid in full through that date. No payment has been made, however, for accrued leave which may be due Mr. Berg. Due to the extenuating factors, it is the understanding of this office that no further payment, including accrued leave, will be made to subject individual.

For the purpose of closing our records, it is requested that you indicate your concurrence by endorsement hereon.

Emmett D. Echols
Emmett D. Echols

*I Concur, April 15, 1947.
This is the instructions
Received from Chief, SSU.*

SSU file
mob

DECLASSIFIED
Authority: 48 CFR 1.101-2.4
48589

() CONFIDENTIAL ()

To: Director, SSU

During the entire period of Mr. Berg's employment, the following salary payments were effected to him.

	Gross	Tax	Net
1 Aug. - 31 Dec. 43 -	\$1845.10	\$328.00	\$1517.10
1 Jan. - 31 Dec. 44 -	\$4494.91	\$795.20	\$3699.71
1 Jan. - 31 Dec. 45 -	\$5259.86	—	\$5259.86
1 Jan. - 19 Oct. 46 -	\$4712.90	—	\$4712.90
TOTAL	\$16,312.77	\$1,123.20	\$15,189.57

Likewise, during this entire period Mr. Berg is legitimately entitled to per diem and/or living and quarter allowances during his period overseas and U.S. duty. Due to almost complete lack of information as to the activities of subject individual while in the field and in the U.S., the only basis for determining whether the individual is entitled to per diem or living and quarter allowances are the original orders covering each of three trips made from the U.S. In recapitulation these orders provide for the following:

- 4 May 1944 - Permanent change of station to Cairo with subsequent permanent change of station to ETO on 14 Sept. 1944.
- 17 May 1945 - Temporary duty orders to Europe.
- 14 Sept. 1945 - Permanent change of station to Paris.

Lacking data on the return orders of transfer from overseas stations to Washington and assuming that he was in travel status at all times yields a maximum allowable per diem for the period 4 May 1944 thru 30 October 1946 (estimated date of return to U.S.) as follows - 911 days at \$7.00 per day, \$6377.

An alternative to the above maximum allowable per diem, computed below is estimated minimum per diem and/or living and quarter allowances for the same period computed in accordance with such orders as are available on subject individual.

CONFIDENTIAL

DECLASSIFIED
Authority: 6854 GND 47584

CONFIDENTIAL

4-8 May 44 @ \$7.00 (approx. days enroute to Cairo)	Per Diem \$35.00
9 May-13 Sept. 44 @ Cairo I&Q rate \$1512	per annum 525.00
14 Sept. 44 - 30 April 45 @ London I&Q rate \$1915.20	per annum 1207.64
1 May-16 May 45 @ TD4 Per Diem in U.S. \$6.00	96.00
17 May-31 Aug. 45 @ TD4 Per Diem abroad \$7.00	749.00
1 Sept.-13 Sept. 45 @ TD4 Per Diem in U.S. \$6.00	78.00
14 Sept. 45 - 30 April 46 @ Paris I&Q \$2520 per annum	1589.00
1 May 46-30 June 46 @ Paris I&Q \$1729 per annum	288.16
1 July 46-30 Oct. 46 @ Paris I&Q \$1360 per annum	453.32
	Total \$5,021.12

Above dates are estimated dates of duty at posts indicated.
This figure does not take into account travel which might have been made away from permanent post.

The above tabulations indicate that out of the \$21,439.14 drawn by the individual during his assignment with SSU, credit could properly be allowed for per diem and/or living and quarter allowances in accordance with either the minimum or maximum amounts as computed above, or an intermediary figure. This makes no provision for out-of-pocket transportation costs, although said individual presumably traveled (for the most part) at no cost, via ATC; nor does it make allowances for any operational expenses which he most certainly incurred in the performance of his duties.

It is requested that a decision be made as to the method to be pursued in effecting a settlement of this account so that it can be removed from the Special Funds books. Attached hereto is the entire file on Morris Berg for your additional information. Under the date of 12 August 1946 there is a recapitulation of the detailed items making up the total amount of the advance account. It is requested that this file be safeguarded as it contains supporting data pertinent to our accounts.

CONFIDENTIAL

X
6 February 1947

Mr. Morris Berg
156 Roseville Avenue
Newark, N. J.

Dear Mr. Berg:

After further consideration of our conversation of 30 January, I wish merely to present you with my summary of the situation.

I must conclude that on a technical approach to the problem, there is apparently no legal obligation on your part. I repeat, your services and your ability were highly appreciated, and were worth at least as much as was involved. There is no desire on the part of anyone to collect or to permit you to proffer any sum of money in connection with this amount. I repeat, also, that our problem is purely an administrative paper problem, in that we must have something which ties up the financial expenditure in terms of the general purpose for which each portion was used.

I accept, however, your reasoning, as your personal opinion, through which you are convinced there is an obligation on your part to make payment. In my opinion, this obligation exists only insofar as you yourself feel it exists, in other words it is purely unilateral, a moral obligation which creates no enforceable rights on our part. There is no necessity for any notes or other evidence of debt; if you still wish to write me a statement of intent, I shall include it in my papers to explain your position. No demand for payment will or could be made by us, and consequently, time is not an element to be considered. Whatever payments you feel you must make can be made when and as you see fit. If, at any time you wish to make payment to a person or office other than the individual we discussed, I can supply you with such a name on request. This is purely because of our desire to cooperate with your expressed intention, but does not correspond with our feeling of the justice of the situation.

MEMORANDUM FOR: Chief, Special Funds Branch

Mr. Berg is expected to return the early part of next month. I shall personally speak to him about the necessity of adjusting his accounts at an early date. I have no concern whatsoever about the systematic and appropriate use of funds on the part of Mr. Berg. The circumstances surrounding his activities are such as to make it difficult, perhaps, for him to follow the regular procedure. However, the matter will be brought to his attention at once upon his return.

MEMORANDUM OF AGREEMENT made this 14 day of April, 1944, effective as of the 14th day of April, 1944, between the UNITED STATES OF AMERICA (hereinafter called "the Government"), represented by the Office of Strategic Services, and Morris Berg (hereinafter called "the Employee").

WITNESSETH:

1. The Employee shall faithfully perform, in an employer-employee relationship and under the supervision and control of the Office of Strategic Services, all duties within or without the continental limits of the United States which may be assigned to him by said Office.
2. The term of employment shall be from the effective date hereof to the termination of the present hostilities and six months thereafter, unless sooner terminated as hereinafter provided.
3. The Government further agrees:
 - (a) To compensate the Employee at a salary of \$316.66 per month, *plus \$52.36 per month overtime*, less any amounts withheld pursuant to law;
 - (b) To pay the cost of all travel by the Employee necessary to the performance of his duties hereunder, and upon termination of this agreement to pay the cost of transporting the Employee from his then location to the place at which this agreement shall have been executed;
 - (c) To pay the Employee a per diem in lieu of subsistence while in travel status on official business in the United States or abroad, and/or a living and quarters allowance while stationed abroad, in accordance with OSS regulations;
 - (d) To reimburse the Employee for the actual cost of any passport photographs, foreign visas, cablegrams or radiograms necessary to the performance of his duties hereunder.
4. The Employee further agrees:
 - (a) To subscribe freely and without reservation to any Oath of Office prescribed by the Office of Strategic Services,
 - (b) To keep forever secret this employment and all information which he may obtain by reason thereof (unless released in writing by the Government from such obligation), with full knowledge that violation of such secrecy may subject him to criminal prosecution under the Espionage Act of 1917, as amended, and other applicable laws;
 - (c) To waive all manner of claims or demands against the Government which may arise out of this employment, other than his rights under the U.S. Employees Compensation Act (5 U.S.C., Ch. 15, as amended) and 50 U.S.C. 1001-1016.
5. This employment may be terminated by either party hereto upon 30 days' written notice to the other party, but such termination shall not release the Employee from the provisions of subparagraphs 4 (b) and 4 (c) hereof.
6. All factual disputes arising hereunder shall be decided by the Contracting Officer, Office of Strategic Services, subject to written appeal within thirty (30) days by the Employee to the Director of OSS or his duly authorized representative; the Employee meantime shall diligently proceed with the performance of his duties and services.

IN WITNESS WHEREOF, the Government and the Employee have caused this agreement to be signed and sealed in _____, intending to be legally bound thereby.

20 March 1946

MEMORANDUM FOR: Chief, Special Funds Branch

Mr. Berg is expected to return the early part of next month. I shall personally speak to him about the necessity of adjusting his accounts at an early date. I have no concern whatsoever about the systematic and appropriate use of funds on the part of Mr. Berg. The circumstances surrounding his activities are such as to make it difficult, perhaps, for him to follow the regular procedure. However, the matter will be brought to his attention at once upon his return.

MORRIS BERG - originally to Cairo, May 1944.
thence to Stockholm and home.
A cable was rec'd from Paris 21 Feb.

ENW

6 March 1946.

Memorandum to: Brig.-General John Magruder
Director SSU

From: Emmett D. Echols
Chief Special Funds

Subject: Outstanding Advances of Mr. Morris Berg.

-
1. A fully approved recommendation for an increase in salary for Mr. Morris Berg has recently passed through this office. This has again called attention to a very unsatisfactory situation, namely, that Mr. Berg has outstanding advances in excess of \$18,000.00
 2. These advances commenced to accrue as early as the middle of 1944, during a period in which Mr. Berg was doing much traveling and was not in a position to render frequent accountings or to draw per diem on a regular basis. It was accordingly understood that Mr. Berg would render complete accountings promptly upon his return to the United States.
 3. Since that time Mr. Berg has returned several times to the United States, but has rendered no accountings. Numerous written and verbal requests for accountings have been made by this Branch, but to this date no acknowledgement or reply has been received. ...In May 1945 an over-seas travel request for Mr. Berg was approved on the verbal promise of the Administrative Officer of the SI Branch that Mr. Berg would render a full accounting before his departure. This was not done.
 4. These facts indicate procrastination and avoidance of financial responsibility which it is felt must be corrected as soon as physically possible. Experience has shown that advances not accounted for promptly and at reasonable intervals inevitably result in unsatisfactory accountings - unsatisfactory to both Special Funds Branch and to the individual.
 5. Since Special Funds Branch has been unable to effect a satisfactory settlement of this matter through direct channels it is requested that remedial action be ordered by the Director's office.

MEMORANDUM

4 December 1945.

To: Lt. Col. S. M. Skinner, 1218 Que Building.
From: Executive Office, Operations, 220 Admin. Bldg.

In accordance with our telephone conversation, I am forwarding to you a communication from the Chief, Special Funds Division which was addressed to Mr. Morris Berg concerning the fiscal advances for which he had not accounted as of 1 October 1945 when OSS was terminated. I am also forwarding to you a copy of the covering memorandum which was sent to Lt. (jg) Robert Thrun of the Executive Office concerning these advances.

Lt. Thrun turned over to me the covering communication and the communication to Mr. Berg. On or about 8 October I got in touch with Colonel Dix regarding this matter. Colonel Dix advised me at that time that Mr. Berg knew about these advances and that he must account for them. Colonel Dix told me that Mr. Berg was at that time in a neutral country and a cable communication to him would not be of any value inasmuch as he could not make an accounting until he could be in touch with a representative of the Special Funds Division of OSS (or by that time, SSU). Moreover, Colonel Dix indicated that Mr. Berg would return to the United States by the first of November and that he would then make the necessary accounting to Special Funds Division in Washington.

I understand from you that Mr. Berg has not yet returned to the United States. I am concerned that he has not again been informed of this fiscal obligation. I therefore recommend to you that if Mr. Berg is not returning to the United States in the very near future, he be informed by cable from Special Funds Division and yourself of the fact that he must account for the advances to which the attached communication makes reference.

John
John D. Wilson,
Lt. (jg), USNR,
Assistant Executive Officer, Operations.

Morris Berg

5 December 1945

SUBJECT: Mr. Berg's Account.

TO: Mr. John D. Wilson
Asst. Executive Officer, Operations

1. Reference is made to your memorandum of 4 December 1945. Mr. Berg is now on the Continent, and is expected back here shortly. In view of his present assignment it is believed unwise to cable him on the matter of this fiscal obligation. I am informed, by Col. Dix, however that Mr. Berg not only knows about his indebtedness, but that he personally intends to make an accounting with Special Funds upon his return to this country.

2. When Mr. Berg arrives in the United States again he will come to this office, at which time I shall remind him of the matter, and he will get in touch with Special Funds, and with your office, if necessary.

Office Memorandum • UNITED STATES GOVERNMENT

TO : Colonel William P. Maddox

DATE: 14 February 1946

FROM : Lt. Col. S. M. Skinner

SUBJECT: Mr. Morris Berg - Advance in Salary

1. This office recommends advancement in salary for Mr. Morris Berg from \$5180 to \$5810. This request is made because of the exceptional work that Mr. Berg has done on technical matters throughout the European Theater and neighboring countries. His work has been of the highest caliber and of exceptional importance. It has involved the necessity for unusual discretion, tact and fidelity to purpose. It has also required an exceptional degree of technical competence as well as personal courage.

2. The information which Mr. Berg has procured on the type of intelligence which he has been charged with gathering, has been most helpful to the army and navy and several government agencies. He has interviewed numbers of European scientists and engineers, and has established cordial and friendly relationships which have been useful in maintaining continuing contact with such technicians. The intelligence that he has gathered has been of the highest importance and accuracy. By force of his personality it has been possible for him to obtain information which otherwise would have cost a considerable amount of money, through inexpensive means, usually without expense to the United States. Some of the information which he has obtained has been of such value to the United States as to cover Mr. Berg's expense many times over.

3. Mr. Berg's last pay raise was effective 1 December 1944, when he was raised from the equivalent of CAF-11 to the equivalent of CAF-12.

4. It is recommended that the increase in salary be made effective as soon as possible.

18 September 1945

TO: Director's Office
Attention: Mr. E. J. Putzell

SUBJECT: Berg-Scharrer Expense Accounts

Please note the attached expense accounts together with memorandums from Colonel H. W. Dix submitted to this office for payment. Colonel Dix states that the expense account of Dr. Sherrer should be charged to the Director's Office. The expense account is submitted to you for proper approval before payment.

This office is totally unfamiliar with the Azusa project. Mr. Morris Berg has no account against which his expense account may be charged. Please advise us if the expense account of Mr. Berg attached is a proper charge against the Azusa project.

FROM: R. G. White

SUBJECT: Morris Berg

I am advised that Mr. Morris Berg of the
SI Branch has been transferred to ETO. His base pay
prior to 1 December 1944 was \$3,800.00 per annum. Begin-
ning with the month of December, his salary has been
increased to \$4,600.00 which should result in an increase
in living allowance. Before he went abroad he instructed
us to deposit all of his salary in his bank account in
this country and we will continue to do so until further
notice.
